Inspired Artist and Designer |

NAME **Maurice Benayoun**

INTRODUCTION  
- Maurice Benayoun is a new media artist and good at using various media.  
- Since 2005, his works surrounded the topic of “Mechanics of Emotions”

INFLUENCE  
- “The Emotion Vending Machine” takes global emotions through internet data and creates music.  
- The users can make their own musical “cocktail” by selecting up to three emotions from the right size of the vending machine.  
- The musical result can be uploaded on your USB stick or MP3 player.  
- It influenced me that how to create my prototype has the user customizing function and sells emotional products.

NAME **Kenya Hara**

Top

INFLUENCE  
- "Senseware is using design to stimulate the human sense and recall the memory of using experience." Kenya Hara said.  
- Besides the human five senses, the short feeling experience can be stored in the memory.  
- Through the languages and images related to the feeling experience, the memory can be recalled.  
- His theory make me focus on the human feelings and used in Passenger Jet Control System
